Soil Investigation

A GLOBE® Learning Investigation

Soil Investigation at a Glance

Protocols

Measurements taken at Soil Characterization Sites: top and bottom depths for each horizon in the soil profile structure, color, consistence, texture, and amounts of rocks, roots, and carbonates

bulk density, particle density, particle size distribution, pH, and fertility (N, P, K) of samples taken from each horizon

Measurements taken at Soil Moisture or Atmosphere Sites:

soil moisture during two annual campaigns, 12 times per year, or monitored

soil temperature, daily or weekly, with diurnal variation 2 days every 3 months or monitored every 15 minutes

Suggested Sequence of Activities

Read the Introduction.

Read the *Protocols* to learn precisely what is to be measured and how.

Choose any Learning Activities that might support the Protocols.

Make copies of the *Data Sheets* in the *Appendix*.

Perform the Soil Characterization Protocols.

Perform the Soil Temperature Protocol.

Perform the Gravimetric Soil Moisture Protocol.

Perform the Bulk Density, Soil Particle Density, Particle Size Distribution, Soil pH, and Soil Fertility Protocols.

Visit the GLOBE Web site with your students and review the data submission pages for Soils.

Submit your data to the GLOBE Student Data Server using the Web or email.

Special Notes

If you choose to dig a soil pit, you may require help with digging.

Table of Contents

Introduction

Why Investigate Soils?	. Introduction 1
The Big Picture	. Introduction 2
GLOBE Measurements	. Introduction 9
Individual Measurements	. Introduction 9

Protocols

Selecting, Exposing and Describing a Soil Characterization Site

Soil Characterization Protocol

Soil Temperature Protocol

Gravimetric Soil Moisture Protocol

Bulk Density Protocol

Soil Particle Density Protocol

Particle Size Distribution Protocol

Soil pH Protocol

Soil Fertility Protocol

Digital Multi-Day Max/Min/Current Air and Soil Temperature Protocol (see Atmosphere Chapter)

Optional Digital Multi-Day Soil Temperatures Protocol*

Optional Automated Soil and Air Temperature Monitoring Protocol*

Optional Soil Moisture Sensor Protocol*

Optional Water Infiltration Protocol*

Optional Davis Soil Moisture and Temperature Station Protocol*

Learning Activities

Why do We Study Soil?*

Just Passing Through - Beginners

Just Passing Through

From Mud Pies to Bricks*

Soil and my Backyard*

A Field View of Soil - Digging Around*

Soil as Sponges: How Much Water Does Soil Hold?*

Soil: The Great Decomposer*

The Data Game*
